

SANTA'S BUGLE – Sounding in Christmas

Once upon a time, in a land full of snow, there lived a kind man, who we all know, His name was Santa, and every year, He brought us presents, spreading cheer.

But before the magic of Christmas could begin, Santa had to blow his bugle, so thin, it made no noise, all through the year, only on one day, could you hear it near.

The day after Thanksgiving, Santa would blow, And the bugle would ring, with a beautiful glow, The Spirit of Christmas would then appear, Spreading joy and peace, far and near.

The bugle's sound would travel far, to every corner, it would reach like a star, Bringing gifts and grace, to everyone, Even to those, who thought they had none.

As the Spirit of Christmas began to roam, Mrs. Claus would set up a feast, in her home, Santa and his elves, would gather around, to celebrate Christmas, which had just been found.

For Christmas is more than just gifts and toys, it is a time to share love, with girls and boys, to remember the birth of Jesus Christ, And the love He brought, to make us feel nice.

So, when you hear the bugle, on that special day, Remember the true meaning of Christmas, in every way, spread love and joy, like Santa and his elves, And may the Spirit of Christmas, be with you, yourselves.
